The Irish Storm in the House of Commons Continues to Rage.

### REDMOND DEFENDS IRISH

He Claims That the Scene Was Caused By a Trick of the Governments.

### MOTION FOR PUNISHMENT TODAY

London, March 7.—The excitement occasioned by last night's scenes in the house of commons is still very evident; and when the house met at noon today, in view of the possible disturbance, the whole police force on duty at St. Stephens had been mobilized and reinforced by reserves.

Mr. John Redmond speedily rose and raised a question of privilege arising from "the painful scenes of last night." He claimed that members had been suspended without proper steps being taken to identify them and that their removal had been accompanied by undue violence. He was satisfied, he said, that members were suspended who had actually gone to the lobby to participate in the division.

The speaker, interrupting, pointed out that Mr. Redmond was not raising a question of privilege but a point of order. If he was properly informed of any wrongful suspension he, the speaker, would be glad to take steps to rectify them.

Mr. Redmond tried to move an adjournment and appealed to Mr. Balfour to give the members an opportunity for discussion. Mr. Balfour, remarking that he presumed it was desired to institute means for preventing a recurrence of the scenes of last night, promised to consider what opportunity for discussion could be given.

Mr. Balfour subsequently gave notice of a motion to be made tomorrow to suspend such offenders, hereafter, for the remainder of the session.

## MANGLED IN A MILL

Thomas Stewart, a Sawyer, Meets a Horrible Fate at the Paducah Veneer Mill.

### WAS CAUGHT IN THE SAW

He Was Told That He Had But a Short Time to Live and Bade His Family Goodbye.

### HE LIVED BUT HALF AN HOUR

Thomas Stewart, aged about 35, an employe at the Paducah Veneer and Lumber company's mill in Mechanicsburg, met a horrible fate shortly after 11 o'clock this morning.

He was a sawyer at the mill, and in some manner, was caught in the rigging while working with a log, and was carried over into the knife.

He was horribly mangled, the hip joint being saved off, chest cut out, right hand cut off, left heel and right toe severed. The wounded man was taken to his home on Meyers street and Drs. Troutman and Reddick called. He was told he could live but a short time, and bade his wife and three children good bye.

He soon lapsed into unconsciousness and died about half an hour after the accident.

The deceased came here some little time ago from Shawneetown, Ill., and was a hard working sober citizen. The accident which deprived him of life was unavoidable, and a pall of gloom was cast over his fellow workmen by the sad and unexpected tragedy.

The funeral will probably occur some time tomorrow.

### MEDICAL SOCIETY

AN INTERESTING MEETING WITH DR. BROOKS AND DR. SIGHTS

Last Night—Dr. Brooks Recounts an Interesting Incident Illustrating the Subject Discussed.

The Paducah Medical and Surgical society met with Drs. Brooks and Sights last night, and Dr. Brooks read an instructive paper on "Carbolic Acid."

It is a recent discovery that alcohol is an absolute antidote for carbolic acid, either taken internally or externally. It completely destroys the toxic effects without in the least affecting the beneficial properties or results of the poison. As a result of this discovery, carbolic acid may be rubbed on the body or swallowed, and if alcohol is applied or swallowed immediately there will be no disagreeable results.

A young lady in another place a few days ago took two ounces of carbolic acid. She was given four ounces of alcohol and was soon well. Either the acid or the alcohol would have killed her had they not been used in antithetical effect.

Dr. Brooks related an interesting experiment of his own. A few days ago he and Dr. Sights heard of the alcohol antidote and decided to try it. Dr. Sights poured carbolic acid on his hand and then poured on the alcohol and there was no perceptible trace left of the powerful poison.

"Maybe it isn't strong," remarked Dr. Brooks, as he raised the bottle to his nostrils and started to smell it. It spurred up and flew all over his face, dripping from his spectacles and off his chin. Dr. Sights, who happened to have the alcohol bottle in his hand, quickly applied it, and Dr. Brooks experienced no effects from the drastic acid which otherwise would have removed every bit of the cuticle from his face.

### GEO. W. PARKER

NOMINATED FOR MAYOR OF ST. LOUIS BY REPUBLICANS.

St. Louis, March 7.—Geo. W. Parker will be the world's fair mayor.

The Republicans of St. Louis spoke with no uncertain voice at the open primaries held yesterday and the result is shown in the selection of strong men as the candidates of the party for city offices at the coming spring election. There has never been any doubt in the minds of right thinking men as to the result of the contest for the party's favor, but not everybody thought that Mr. George W. Parker's victory would be so overwhelming. Selected as he was at a conference of the leaders of all representative clubs and organizations in the party, Mr. Parker, in his contest for the party's favor, represented all elements in the party, and the results of the voting at the primaries show that all elements of the party voted for him.

### WATER GAVE OUT.

KENTUCKIANS' CAR RUNS SHORT OF WATER, STRNCE TO SAY.

### COUSINS MARRY.

Mr. Charles M. Quigley, aged 32, a railroad man of St. Louis, and Mrs. Sarah Riley, aged 29, of East St. Louis, arrived on the morning train, which was five hours late, and were married at 11 o'clock by Rev. G. W. Perryman, at the First Baptist church parsonage. They left immediately for home. The couple are cousins.

Died at Age of 111. M. Claude Botton, who died recently at Ranchal, near Villefranche, France, was born in 1789 and had consequently attained the prodigious age of one hundred and eleven. He was perfectly healthy and well remembered the events of his boyhood. Curiously enough, he died not of old age, but from an accidental fall. There is no doubt of his age, as his birth is recorded in the birth register of Saint-Germain-la-Montagne.
